**1 NATURAL WOOD:
CREATING BEAUTIFUL
INTERIORS**

The **Prodema** range of interior products create a unique ambiance with the most beautiful, versatile and aristocratic of material: natural wood. Each piece is one-of-kind, individual in tone and grain, an authenticity which few other materials can match.

TRADITION WITH MODERNITY

Over the centuries, wood has been one of the most sought after materials in construction, due to its durability, efficiency and beauty.

At **Prodema**, we combine the knowledge passed down the generations with the most current and cutting-edge technology to meet the needs of modern life, without abandoning the spirit and essence of natural wood.

A photograph showing two pairs of hands and feet clasped together in a supportive grip, resting on a dark, textured wooden surface. The hands are positioned above the feet, with fingers interlaced. The lighting is dramatic, highlighting the skin tones against the dark wood.

**2 SPACES OF
WELL-BEING**

FEEL THE COMFORT

Feel the warmth, the elegance. Experience the touch, the delicate sound.
Prodema's natural wood calms the senses, creating relaxed interior spaces
which improve quality of life.

IN HARMONY WITH NATURE

At **Prodema**, we are committed to a natural world that is truly respectful of the environment in which we all live.

Upon request, **Prodema** products can be supplied with PEFC accreditation, the world's leading forest certification organisation. PEFC promotes sustainable forestry management, biodiversity and fair social conditions.

A person wearing a tan beanie and a grey hoodie is seen from behind, framing a view of a forest with their hands. The background is a lush, green forest with sunlight filtering through the trees, creating a bokeh effect. The person's hands are positioned to create a rectangular frame around the forest scene.

**3 AT THE SERVICE
OF CREATIVITY**

Exclusive, creative and innovative designs.
With **Prodema**, all are assured.

Because we know how to deliver a wide range
of projects, as specified by the most demanding of creators.

Prodema offer a wide range of possibilities,
a welcoming ambience in all kinds of interior spaces.

Natural wood products for floors, walls and ceilings,
with numerous options and finishes.

Products with the potential for personalisation,
always meeting and often exceeding the aesthetic
and quality levels demanded.

A photograph of a winter forest. In the foreground, several large, dark brown tree trunks are covered in vibrant green moss. The background is filled with evergreen trees heavily laden with snow, creating a soft, white atmosphere. The lighting is diffused, typical of an overcast winter day.

4 THE STRENGTH OF WOOD

WITH EVERY STEP

Natural wood is not only beauty; it is strength. **Prodema's** line of interior products stand out from the rest. Each **Prodema** product is highly resistant to wear, impact and humidity yet require no specific maintenance apart from gentle cleaning. No sanding, lacquering, or oiling.

These are truly unique features in a natural wood product, built on the experience of **Prodema's** success in manufacturing **PRODEX** exterior panels, in use all over the world.

HUMIDITY, UNDER CONTROL

Swimming pools, spas and other moist environments present no problem for our natural wood products, because **Prodema** panels can resist the highest levels of humidity without degradation.

Our panels remain unaffected by water vapour, providing years of reliable service.

**5 PRODUCT
APPLICATIONS**

SUPRA

Floors

SUPRA is **Prodema**'s extensive range of interior flooring, specifically designed for high traffic environments, whilst maintaining the aesthetic and warmth of wood.

And with its strength, **SUPRA** panels offer the highest mechanical properties, such as resistance to abrasion, impact, fire and UV change. Floors where you can feel the comfort and listen to the welcoming sound of wood with each step.

PROLIGNA

Walls and ceilings, for dry environments

The broadest selection of species and finishes for dry environments, such as individual homes, business premises, shopping centres, universities, etc.

NEPTUNO

Walls and ceilings, for humid environments

NEPTUNO brings natural wood up close to water, providing warmth to often cold spaces.

High humidity is not problematic with our resin-core panels, each being specially designed for moist environments such as swimming pools, spas, saunas, etc. **NEPTUNO** is also highly-resistant to impact, UV and fire.

AUDITORIUM

Walls and ceilings, for acoustically sensitive spaces

AUDITORIUM blends the beauty of natural wood with specifically measured acoustic absorption, due to its perforation process. Recommended for places that require acoustic attenuation, such as cinemas, theatres, auditoriums, offices, libraries, etc.

jewellery

WOODTEX

WOODTEX is the natural wood covering of choice, with numerous applications.

It is a highly flexible material for exterior and interior use, and successfully used by joinery shops to cover doors, bespoke furniture, pillars, etc. It can also be used to create the most natural and hard wearing full access floor system.
