36 Cedral Smooth, additional colours: (delivery time: F)		see colour chart page 27								

Special colours on request. Minimum order quantity: 500 pieces. Delivery on oneway pallets.

Cedral Structur natural (delivery time: **s**)

natural CS 200	10	3,600 x 190 = 0.684	0.576	144	82.95	14.5	9.9	1475	20,80	36,11
-----------------------	----	---------------------	-------	-----	-------	------	-----	------	--------------	--------------

Special advice for the primed panel Cedral structur natural CS 200:

The structured side of the panel is grey primed. Latest 4 weeks after assembling you have to get the on site colour coating on the visible side, the backside is sealed transparently. This coating has to be alkali- and weather resistant and it has to show the necessary

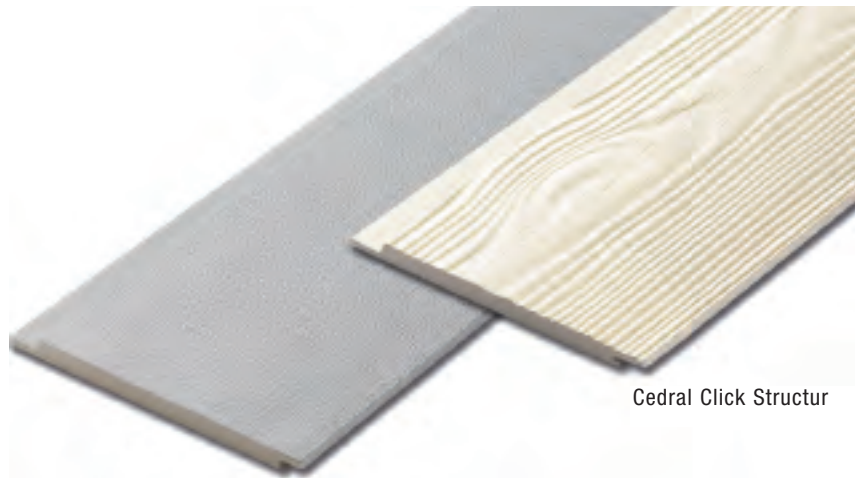

Adapted colours are e.g. Disbocret 515 Betonfarbe (www.caparol.de), StoColor Top (www.sto.de) or Algenschutzfarbe 4055 (www.rickert-bocholt.de).

EBM Export GmbH gives no warranty to these coatings.
